# Saludo del Partido Comunista de Filipinas (PKP) al 50 aniversario del PCOE

A continuación reproducimos el saludo del Partido Comunista de Filipinas (PKP) al 50 aniversario del PCOE:

***Partido Komunista ng Pilipinas (PKP-1930)***

***Philippine Communist Party***

*Greetings to the 50th Anniversary Celebration of the Partido Comunista Obrero Espanol.*

*Partido Komunista ng Pilipinas (Philippine Communist Party-PKP 1930).*

*May 12, 2023*

*To the Secretary for International Relations, the Secretariat, the Central Committee and members of Partido Obrero Comunista Español.*

*Dear Comrades,*

*Our warmest revolutionary Greetings!*

*We wholeheartedly congratulate you and your Party's 50th inaugural celebration. We salute your unwavering commitment to Marxism Leninism as your party's ideological, theoretical, political and practical foundation. We join your steadfast and resolute conviction against revisionism, left and right opportunism and other forms of deviation from Marxism-Leninism.*

*Today, the world imperialism crisis and fascism is driving the whole world to unite, to form a concrete global action which is founded on the class ideologues of Marxism Leninism and there is no alternative; against the threat of war and global catastrophe. We have to strengthen our international unity and cooperation. It is imperative and the only alternative. The capitalist war being waged by the imperialist against the working people of the world had led to an un-precedent global economic crisis that reawakened the fascist ideology of Nazism. As an imperialist ideology designed to strangle the working class struggle it is now the menace that is engulfing Europe and its specter is haunting Asia especially our country. Yesterday it was the Fascist-militarist war wage against the Union of Soviet Socialist Republic (USSR), Europe and Asia: today it is the Neo Nazi War against the Russian Federation and Europe and tomorrow, if not prevented it will be an Asian proxy militarist imperialist war for conquest and re-neocolonialism of Asia and the Asian Pacific Region.*

*Imperialist war is odious! It is against humanity and civilization! It stifles progress and development! It creates destruction to human lives and properties. The world need not suffer and therefore it should stop! It cannot be stopped by hyping nationalism and national interest as imperialism is global exploitation and war. While it is imperative for the national struggle to cut the national tentacle of imperialism in their respective countries it is immediate for the whole world and working class to expose and depose imperialism and fascism.*

*In conclusion, again we extend our warmest greeting and embrace. We believe that this anniversary celebration will enhance your party's capacity and capabilities to lead the working class against imperialism, against war: for peace, democracy and socialism.*

*Long Live the Partido Comunista Obrero Español!*

*Long Live Proletarian Internationalism!*

*Comradely Yours,*

*Eduardo F. Landayan*

*General Secretary*

*Partido Komunista ng Pilipinas*
